The Gentleman's Magazine Library

This book provides an analysis of the country's political economy in transition. It documents the history of the gold mining industry's involvement in shaping the political landscape of South Africa, and shows the degree to which the political transition was induced to put in place a new mode of regulation for capital accumulation. In the process, the victims of apartheid have now become victims of democracy's neo-liberalism as the government is constrained from being developmental, interventionist and redistributive.

In this edition, Professor Allen has in particular revised the presentation of the controversial question of stress; the chapter on quantity has been extensively recast; and an appendix has been added on the names of the letters of the Greek alphabet. In addition to the new material, the supplementary notes of the second edition are now incorporated into the main text making this a very convenient book to use.

Alaskan Sled Dog 20 Selfie Milestone Challenges

About the Holy Bible is a classic bible history text by Robert G. Ingersoll. Somebody ought to tell the truth about the Bible. The preachers dare not, because they would be driven from their pulpits. Professors in colleges dare not, because they would lose their salaries. Politicians dare not. They would be defeated. Editors dare not. They would lose subscribers. Merchants dare not, because they might lose customers. Men of fashion dare not, fearing that they would lose caste. Even clerks dare not, because they might be discharged. And so I thought I would do it myself. There are many millions of people who believe the Bible to be the inspired word of God -- millions who think that this book is staff and guide, counselor and consoler; that it fills the present with peace and the future with hope -- millions who believe that it is the fountain of law, Justice and mercy, and that to its wise and benign teachings the world is indebted for its liberty, wealth and civilization -- millions who imagine that this book is a revelation from the wisdom and love of God to the brain and heart of man -- millions who regard this book as a torch that conquers the darkness of death, and pours its radiance on another world -- a world without a tear. They forget its ignorance and savagery, its hatred of liberty, its religious persecution; they remember heaven, but they forget the dungeon of eternal pain. They forget that it imprisons the brain and corrupts the heart. They forget that it is the enemy of intellectual freedom. Liberty is my religion. Liberty of hand and brain -- of thought and labor, liberty is a word hated by kings -- loathed by popes. It is a word that shatters thrones and altars -- that leaves the crowned without subjects, and the outstretched hand of superstition without alms. Liberty is the blossom and fruit of justice -- the perfume of mercy. Liberty is the seed and soil, the air and light, the dew and rain of progress, love and joy. -Robert G. Ingersoll
