The Land Rover Range Rover (LP), generally shortened to Range Rover, is the second-generation Range Rover model from British car maker Land Rover. It was launched on 28 September 1994, 24 years after the introduction of the Range Rover Classic. It included an updated version of the Rover V8 engine, with the option of a 2.5-litre BMW six-cylinder turbo-diesel. The new model offered more equipment and premium trims, positioning the vehicle above the Land Rover Discovery to face the increased competition in the SUV marketplace.

It is usually known as the Range Rover P38 or P38A outside of Land Rover, after the office building in which the vehicle development team was based. During the early development stages, the Engineering team was based in the Engineering Block at Solihull, and the vehicle...

The Land Rover Discovery is a series of five or seven-seater family SUVs, produced under the Land Rover marque, from the British manufacturer Land Rover, and later Jaguar Land Rover. The series is currently in its fifth iteration (or generation, according to the manufacturer), the first of which was introduced in 1989, making the Discovery the first new model series since the launch of the 1970 Range Rover – on which it was based – and only the third new product line since the conception of the Land Rover (vehicle and brand) by Rover in 1948. The model is sometimes called influential, as one of the first to market a true off-road capable family car.

Although the Range Rover had originally been designed as an everyday four wheel drive car that could be used as both a utility vehicle and a family...
