The Nissan Qashqai () is a compact crossover SUV (C-segment) designed and produced by the Japanese car manufacturer Nissan since 2006. The first generation of the vehicle was sold as the Nissan Dualis (Japanese: デュアルリス, Hepburn: Nissan Dyuarisu) in Japan and Australia, and Qashqai in the rest of the world. The second generation, launched in late-2013 for the 2014 model year, was not sold in Japan and was badged as the Qashqai in all countries it was sold, except in the United States, where it was rebadged as the Nissan Rogue Sport. Since the third and latest generation model launched in 2021, the Qashqai is available with hybrid powertrains.

Nissan named the vehicle after the Qashqai people, who live in mountainous Central and Southwestern Iran. As of 2023, for the European and Australian...

First-generation Nissan Qashqai (known as Nissan Dualis in Australia and Japan and as Nissan Xiaoke in China) is a compact crossover SUV that was produced by Japanese carmaker Nissan from December 2006 to October 2015. Designed by a team led by Stefan Schwarz, Qashqai is widely regarded as one of the first urban crossover vehicles and the first Nissan vehicle to be developed almost entirely in Europe. Development of the vehicle began in 2002 with a project to replace the poorly marketed second-generation Almera model. Two years later, a Qashqai concept car was presented at the Geneva Motor Show. The production version was presented in September 2006 at the Paris Motor Show, and sales began in Europe and Middle East in the first months of 2007. By the spring of 2009, the Qashqai was also sold...

The Nissan Note (Japanese: ノート, Hepburn: Nissan Nōto) is a supermini/subcompact hatchback or a mini MPV manufactured and marketed globally by Nissan. Introduced in 2004, the first-generation Note was primarily marketed in Japan and Europe, and was produced in Japan and the United Kingdom. The second-generation model was sold in other regions, including North America where it was manufactured in Mexico and marketed as the Versa Note, and Thailand, where it serves as one of the B-segment hatchback offered by the brand alongside the smaller March/Micra under the Eco Car tax scheme.

In 2017, the second-generation Note was replaced by the French-built K14 Micra for the European market. The Versa Note was discontinued in North America in 2019 due to the decreasing demand for subcompact hatchbacks...

The Nissan X-Trail (Japanese: エクストレイル, Hepburn: Nissan Ekusutoreiru) is a compact crossover SUV produced by the Japanese automaker Nissan since 2000. Since 2018, it is positioned between the Qashqai and the larger Murano.

Since the third-generation model, the X-Trail became the same vehicle as the North American market Rogue. For the first time, the X-Trail became available with three-row seating as an option. It also marked a departure in terms of design from a rugged boxy look to a more urban-oriented crossover SUV design. The fourth-generation model, launched for 2021, introduced an e-Power series hybrid powertrain option.

The Nissan Vanette (Japanese: バンエット, Hepburn: Nissan Banetto) is a cabover van and pickup truck produced by the Japanese automaker Nissan from 1978 until 2011. The first two generations were engineered by Nissan's Aichi Manufacturing Division for private, personal ownership, with the last two generations built by Mazda, rebadged as Nissans and refocused as commercial vehicles, based on the Mazda Bongo. The van has also been sold as the Nissan Sunny-Vanette or Nissan Van. The private purchase passenger platform was replaced by the Nissan Serena in 1991, renamed Vanette in various international markets, and came equipped with multiple engine and drivetrain configurations.

Both 2WD and 4WD versions were produced, with manual, automatic, floor and column shift options available. While no longer...

The Nissan Maxima is a five-passenger, front-engine, front-drive sedan that was manufactured and marketed by Nissan as Nissan's flagship sedan primarily in North America, the Middle East, South Korea, and China — across eight generations. The Maxima debuted for model year 1982 as the Datsun Maxima, replacing the Datsun 810.

The Maxima was marketed as an upscale alternative to the Altima and prior to 1993, the Stanza, distinguished by features such as a premium interior and V6 engine. Most Maximas were built in Oppama, Japan, until North American assembly began in Smyrna, Tennessee, for the 2004 model year.

For the US and Canada, Nissan ended production of the Maxima in July 2023.

Outside North America, the Maxima nameplate has also been applied to variants or trim levels of several other models...
