Dodoma

with the following places: Jaipur, India Bangui, Central African Republic Watsa, Democratic Republic of Congo Linz, Austria The city hosts the Dodoma Cathedral

Dodoma (lit. 'It has sunk' in Gogo), officially Dodoma City (Jiji Kuu la Dodoma, in Swahili), is the capital city of Tanzania. With a population of 765,179, it is also the administrative capital of both Dodoma Municipal Council and the entire Dodoma Region. In July 2024, Dodoma officially surpassed Arusha to become the third largest city in Tanzania on both infrastructure and population measures.

In 1974, the Tanzanian government announced that Tanzania's national capital would be moved from Dar es Salaam to Dodoma for social and economic reasons and to centralise the capital within the country. It became the official capital in 1996.

Much of Dodoma's initial design did not come to fruition until the 21st century. In May 2023, the national government under President Samia Suluhu unveiled the...

Sex education in India

doi:10.1177/02537176221139566. ISSN 0253-7176. PMC 10159571. PMID 37152376. Watsa, M. C. (2005). "Sexual Health Services for Young People" (PDF). Journal

Sex education is a controversial subject in India, sometimes viewed as a taboo topic; across the country and within the community, opinions on how or whether to deliver it are divided. The states of Gujarat, Maharashtra, Madhya Pradesh and Chhattisgarh have banned or refused to implement sex education in schools. The BJP government in Madhya Pradesh said sex education had "no place in Indian culture" and plans to introduce yoga in schools instead. On the global level, India has notably fallen behind numerous countries, including underdeveloped and significantly smaller countries such as Sudan and the Congo Republic, where sex education is first taught at the primary level.

Marburg virus disease

outbreak occurred among illegal gold miners around Goroubwa mine in Durba and Watsa, Democratic Republic of Congo from 1998 to 2000, when co-circulating MARV

Marburg virus disease (MVD), formerly Marburg hemorrhagic fever (MHF) is a viral hemorrhagic fever in human and non-human primates caused by either of the two Marburgviruses: Marburg virus (MARV) and Ravn virus (RAVV). Its clinical symptoms are very similar to those of Ebola virus disease (EVD).

Egyptian fruit bats are believed to be the normal carrier in nature and Marburg virus RNA has been isolated from them.
