Mafia Island

2007.^{{{cite web}}}: CS1 maint: bot: original URL status unknown (link) Osborne, Hannah (13 May 2016). "Diver in Tanzania discovers ancient city submerged

Mafia Island or Chole Shamba (Kisiwa cha Mafia, in Swahili) is an island of The Mafia Archipelago located in Mafia District in the southern Pwani Region of Tanzania across the Mafia Channel. The island is the third largest in Tanzanian ocean territory, but is not administratively included within the semi-autonomous region of Zanzibar, which has been politically separate since 1890. Mafia Island forms the largest part of Mafia District, one of the six administrative districts in the Pwani Region. As the Mafia Archipelago's main island, it's sometimes called Chole Shamba, meaning Chole farmlands in Swahili. This is in opposition to the historic settlement of Chole Mjini (Chole town) on Chole Island inside Mafia Bay. The island's population is over 65,000. The economy is based on fishing, subsistence...

Artificial reef

destroying nearby coral reefs and inhibiting new coral growth. On the Osborne Reef off the coast of Fort Lauderdale, Florida, storms broke the nylon

An artificial reef (AR) is a human-created freshwater or marine benthic structure.

Typically built in areas with a generally featureless bottom to promote marine life, it may be intended to control erosion, protect coastal areas, block ship passage, block the use of trawling nets, support reef restoration, improve aquaculture, or enhance scuba diving and surfing. Early artificial reefs were built by the Persians and the Romans.

An opportunity artificial reef is built from objects that were intended for other purposes, such as sinking oil rigs (through the Rigs-to-Reefs program), scuttling ships, or by deploying rubble or construction debris. Shipwrecks may become artificial reefs when preserved on the seafloor. A conventional artificial reef uses materials such as concrete, which can be molded...

Arthur C. Clarke

of 1948–1949. Clarke initially served in the ranks and was a corporal instructor on radar at No. 2 Radio School, RAF Yatesbury in Wiltshire. He was commissioned

Sir Arthur Charles Clarke (16 December 1917 – 19 March 2008) was an English science fiction writer, science writer, futurist, inventor, undersea explorer, and television series host.

Clarke was a science fiction writer, an avid populariser of space travel, and a futurist of distinguished ability. He wrote many books and many essays for popular magazines. In 1961, he received the Kalinga Prize, a UNESCO award for popularising science. Clarke's science and science fiction writings earned him the moniker "Prophet of the Space Age". His science fiction writings in particular earned him a number of Hugo and Nebula awards, which along with a large readership, made him one of the towering figures of the genre. For many years Clarke, Robert Heinlein, and Isaac Asimov were known as the "Big Three..."

Coral reef

fishing practices". *Encyclopedia of Earth*. Retrieved 25 October 2008. Osborne, Patrick L. (2000). *Tropical Ecosystem and Ecological Concepts*. Cambridge:

A coral reef is an underwater ecosystem characterized by reef-building corals. Reefs are formed of colonies of coral polyps held together by calcium carbonate. Most coral reefs are built from stony corals, whose polyps cluster in groups.

Coral belongs to the class Anthozoa in the animal phylum Cnidaria, which includes sea anemones and jellyfish. Unlike sea anemones, corals secrete hard carbonate exoskeletons that support and protect the coral. Most reefs grow best in warm, shallow, clear, sunny and agitated water. Coral reefs first appeared 485 million years ago, at the dawn of the Early Ordovician, displacing the microbial and sponge reefs of the Cambrian.

Sometimes called rainforests of the sea, shallow coral reefs form some of Earth's most diverse ecosystems. They occupy less than 0.1% of...

List of Harvard University people

Retrieved August 12, 2009. "Prof. Samuel Barnes Dies; Health, Phys Ed Instructor". *The Washington Post*. January 24, 1997. ProQuest 408298274. "Dept. of

The list of Harvard University alumni includes notable graduates, professors, and administrators affiliated with Harvard University. For a list of notable non-graduates of Harvard, see the list of Harvard University non-graduate alumni. For a list of Harvard's presidents, see President of Harvard University.

Eight Presidents of the United States have graduated from Harvard University: John Adams, John Quincy Adams, Rutherford B. Hayes, John F. Kennedy, Franklin Delano Roosevelt, Theodore Roosevelt, George W. Bush, and Barack Obama. Bush graduated from Harvard Business School, Hayes and Obama from Harvard Law School, and the others from Harvard College.

Over 150 Nobel Prize winners have been associated with the university as alumni, researchers or faculty.

DSV Limiting Factor

"Deepest ever manned dive finds plastic bag". CNN. Retrieved 2019-05-14. Osborne, Hannah (2019-05-13). "Meet Victor Vescovo, who just broke the world record"

Limiting Factor, known as Bakunawa since its sale in 2022, and designated Triton 36000/2 by its manufacturer, is a crewed deep-submergence vehicle (DSV) manufactured by Triton Submarines and owned and operated since 2022 by Gabe Newell's Inkfish ocean-exploration research organization. It currently holds the records for the deepest crewed dives in all five oceans.

Limiting Factor was commissioned by Victor Vescovo for \$37 million and operated by his marine research organization, Caladan Oceanic, between 2018 and 2022. It is commercially certified by DNV for dives to full ocean depth, and is operated by a pilot, with facilities for an observer.

The vessel was used in the Five Deeps Expedition, becoming the first crewed submersible to reach the deepest point in all five oceans. Over 21 people...

List of My Three Sons episodes

correct answer to a contest over the phone and wins one dance lesson. His instructor is pretty Helen Saunders (Joanna Moore), who is also skilled in lavish

This is a list of episodes from the American sitcom My Three Sons. The show was broadcast on ABC from 1960 to 1965, and was then switched over to CBS until the end of its run; 380 half-hour episodes were filmed. 184 black-and-white episodes were produced for ABC from 1960 to 1965, for the first five years of its run.

When the show moved to CBS in September 1965, it switched to color, and 196 half-hour color episodes were produced for telecast from September 1965 to the series' end in 1972.
