Global Positioning System

2017. Retrieved December 4, 2018. Strang, Gilbert; Borre, Kai (1997). Linear Algebra, Geodesy, and GPS. SIAM. pp. 448–449. ISBN 978-0-9614088-6-2. Archived

The Global Positioning System (GPS) is a satellite-based hyperbolic navigation system owned by the United States Space Force and operated by Mission Delta 31. It is one of the global navigation satellite systems (GNSS) that provide geolocation and time information to a GPS receiver anywhere on or near the Earth where signal quality permits. It does not require the user to transmit any data, and operates independently of any telephone or Internet reception, though these technologies can enhance the usefulness of the GPS positioning information. It provides critical positioning capabilities to military, civil, and commercial users around the world. Although the United States government created, controls, and maintains the GPS system, it is freely accessible to anyone with a GPS receiver.

reference in physics or the orientation of a general basis in 3-dimensional linear algebra. Alternative forms were later introduced by Peter Guthrie Tait and George

This glossary of aerospace engineering terms pertains specifically to aerospace engineering, its sub-disciplines, and related fields including aviation and aeronautics. For a broad overview of engineering, see glossary of engineering.

Italians

the theory of relativity; Ricci-Curbastro also wrote meaningful works on algebra, infinitesimal analysis, and papers on the theory of real numbers. Giuseppe

Italians (Italian: italiani, pronounced [itaˈljaːni]) are a European ethnic group native to the Italian geographical region. Italians share a common culture, history, ancestry and language. Their predecessors differ regionally, but generally include populations such as the Etruscans, Rhaetians, Ligurians, Adriatic Veneti, Ancient Greeks and Italic peoples, including Latins, from which Romans emerged and helped create and evolve the modern Italian identity. Legally, Italian nationals are citizens of Italy, regardless of ancestry or nation of residence (in effect, however, Italian nationality is largely based on jus sanguinis) and may be distinguished from ethnic Italians in general or from people of Italian descent without Italian citizenship and ethnic Italians living in territories adjacent...
