A Modern Guide to Knifemaking

In A Modern Guide to Knifemaking, survivalist Laura Zerra, one of the stars of Naked and Afraid on the Discovery Channel, shares her essential knifemaking tips and tricks, including step-by-step instructions for both forging and stock removal. We all use a knife pretty much every day, but for Zerra, her daily life often depends on the blade she takes with her into the wild. She's learned about

what works and what doesn't, what steel will hold an edge, and what nuances in blade design will make or break a knife. From design to sharpening, *A Modern Guide to Knifemaking* covers every step in the knifemaking process. To begin, you will consider what you want your knife to accomplish, develop a design, and make a prototype. Zerra takes you through choosing and buying steel for your knife and then teaches you to build your own forge. You will learn forging basics and then move on to forge the shape of your knife and make the blade tip. From there, you will cut the blade profile, grind in bevels to make the edge of the knife, heat treat and temper your blade, grind and polish it, and make a handle and sheath for it. You will also learn sharpening techniques to maintain the edge of your new knife. Throughout, Zerra has included Pro-Tips from some of the leading knifemakers working today including Ken Onion, Kaila Cumings, and Mike Jones. *A Modern Guide to Knifemaking* covers every detail of knifemaking so you can make yourself the perfect knife.

Forged

\"This book will teach you to hand build a knife using the traditional method of blacksmiths of old-forging. Traditional forging of a knife blade is a process which uses the ancient techniques of moving hot steel with hammer and anvil alone into a knife-form that is ready for filing, heat treating and sharpening with no or very minimal electric grinding. Almost anyone with basic hand tool aptitude can learn to make a knife by forging. Forging skills are not outside the average person's facility or capacity. If this is a new encounter for you it will necessitate your swinging a hammer; not at a nail but at a piece of hot steel, learning and applying some ten or twelve blacksmithing techniques and secrets, and experiencing some trial and error. I have probably taught hundreds of men, women and a few children to do this and I am confident you can learn to do this too. As a wise man said: \"Life is trial and error, mostly error\". I make errors every time I go to my anvil. So will you. This book also teaches traditional fit-and-finish skills with hand tools alone. It explains an ancient riveted full-tang handle construction system that surpasses modern methods. This book is designed for both first-time, back-yard beginner smiths to experienced knifemakers and any general blacksmiths in between wanting to build a knife using these ancient ways\"--

Introduction to Knifemaking

The best way to start in knifemaking is usually to make a fixed-blade knife, and this idea-rich guide with carefully detailed instructions offers a full tang knife and a hidden tang knife. Make each of these two projects by following the individual construction principles here, and learn all phases of the knifemaking process. A few simple tools and a suitable workplace are all you need; materials are inexpensive. In their decades of teaching, the authors have often heard \"I've never worked with metal before\" and offer quick ways to understand the basics. Enjoy clear answers to the questions they often hear from their beginning students, such as \"Is the steel hard yet?\" or \"What kind of wood works best for the handle?\" With this complete guide, there is nothing standing in the way of you starting your knifemaking hobby.

Whittling

Do you love learning with your hands and seeing a project through to its finish? Are you looking to express your inner creativity in a way that produces beautiful works of art? Did you enjoy whittling as a kid, and want to give your own son or grandson the same experience? Do you get random spurts of energy at odd times of the day and don't know what to do with them? If your answer to one of these questions is 'Yes', then this book is for YOU. We all have that spark of creative genius within us, but sometimes we just don't know how to tap into it. Sometimes, the traditional creative mediums of

painting, music, and the like just don't cut it. Did you know that children learn the best and fastest when they do things hands on? Whittling is one of the best crafts to teach patience and cultivate your child's creative genius. While there are countless ways one can spend their time being creative, there are only a few that truly bring us back to our roots, back to a time long before cell phones and airplanes. Learn an Ancient Art and Create Beautiful Things with a Pocket Knife! Are you looking for a new skill to master? Do you want to surprise a loved one with a unique handmade gift? Then whittling, or wood carving, is something for you! Wood carving used to be an important skill in many cultures around the world until the 1960s, when electronic entertainment became more popular. But now old hobbies are returning, and whittling is among them. But... how do you learn a skill that has been out of fashion for decades? By reading a high-quality book, grabbing some wood and a knife, and practicing! This book by Antony McDeere is exactly what you need to create your first whittling projects. It will introduce you to the fascinating world of whittling and guide you through several projects. The book will give you a solid foundation that you can build on to become a master whittler. With this book, you will: Learn how to choose the ideal type of wood for your whittling projects - any wood can be used for whittling, but its hardness and texture should match your skill and the type of sculpture you're planning to create. Get to know the wide variety of tools used for whittling - for your first projects, you'll only need a pocket knife, but as your skills develop, you'll master the use of other tools. Practice the fundamental techniques of whittling! Complete exciting whittling projects that range from easy to hard - wooden animals, dinosaurs, cups, spoons, bows and many more! Get the inspiration that you need to create your own whittling projects! Ready to impress your friends and loved ones with your new skill? Scroll up, click on \"Buy Now with 1-Click\"
