His Life, Works, and Role in the Philippine Revolution

Filipino national hero Jose Rizal wrote The Social Cancer in Berlin in 1887. Upon his return to his country, he was summoned to the palace by the Governor General because of the subversive ideas his book had inspired in the nation. Rizal wrote of his consequent persecution by the church: "My book made a lot of noise;

everywhere, I am asked about it. They wanted to anathematize me ['to excommunicate me'] because of it ... I am considered a German spy, an agent of Bismarck, they say I am a Protestant, a freemason, a sorcerer, a damned soul and evil. It is whispered that I want to draw plans, that I have a foreign passport and that I wander through the streets by night ...\"

The Encyclopaedia Britannica

Of the many books written about Philippine Hero Dr. Jose P. Rizal, very few have focused on his family history, and none have dedicated more than a few lines about the family backgrounds of the women associated with him. The Rizalian Trees: Lineages of Jose Rizal and His Love Interests aims to discuss in more detail the genealogy of Jose Rizal, putting together all that have already been written about his family as well as many new information that address legends and misconceptions about the Rizals and their ancestry. Furthermore, this book is also the first of its kind to explore the interesting families of the nine women considered as Rizal's love interests. As part of their Philippine history and Rizal courses, most Filipinos memorized the names of Rizal's lovers: Segunda, the two Leonors, Consuelo, O Sei San, Getty, Suzanne, Nellie, and, of course, Josephine. Many of Rizal's biographers have touched on these women's interactions with Rizal and how they ended, with Rizal abandoning them and these ladies either marrying someone else or dying without loving another man. One of Rizal's nine love partners, Leonor Valenzuela, vanished from history, one died alone (Consuelo Ortiga y Rey), one remained a spinster (Gertrude Beckett), and the remainder married someone else. Even those who married after Rizal left had short lives: Leonor Rivera only had one surviving child and died young giving birth to her second; Josephine Bracken married again but also died young and only had one child; Seiko Usui (O Sei San) married an Englishman and, like Leonor Rivera, only had one child; Suzanne Thill married late in life and has no known progeny; Nelly Boustead married and had two children before eventually divorcing her husband. Only Segunda Katigbak, often known as Rizal's puppy love, was an exception. Segunda had eleven children with Manuel M. Luz, a member of a wealthy Batangas family. Apart from Segunda Katigbak, who has a large family, the other Rizal women who married had only one or two children, and many died early. Is there a spell on Rizal's love? The major purpose of this work is to annotate the current reputable sources on Rizal's genealogy in order to make sense of the many contradictions and anomalies surrounding his forefathers. The secondary goal is to create an early collection of the nine ladies of Rizal's lineages. Please keep in mind that this is not a biography of Rizal's ladies. The goal of this project is to look into Jose Rizal's genealogy and that of the ladies he adored. Also, this is only the beginning of a full-fledged exploration of these women's family histories in the future. For the time being, a genealogical sketch will suffice.

José Rizal

To Filipinos, Jose Rizal is the greatest Filipino hero who ever lived. Many historians and scholars had written and continues to study his life and works even today. Jose Rizal traveled extensively during his lifetime in Europe, Asia and the United States, spending a lot of his time traveling in Germany. Some Filipinos think he is the most traveled of all the national heroes of the Philippines. Rizal traveled to Germany from the beginning of 1886 to mid-1887. He chronicled almost every detail of his life and travels in Germany including his travels with fellow Filipino expat Maximo Viola who joined him during the latter half of his travels. This book is written to provide and inform Filipinos about his time in Germany, the places he had seen, the places he would have seen and what became of them over the decades. Many had changed in Germany since the 1880's and the country became prominent in the history of the 20th century Europe. To our generation, Germany is a very different country from the time of Rizal both politically, economically, and culturally. This book will also discuss a short history of the various German cities Rizal visited in his travels, how he found it and its political, economic and cultural standing today. This book also offers new information about some of the places where Rizal had lived in Germany.

Lineage, Life and Labors of José Rizal, Philippine Patriot

José Rizal has a good claim to being the first Asian nationalist. An extremely talented Malay born a hundred years ago in a small town near Manila, educated partly in the Philippines and partly in Europe, Rizal inspired the Filipinos by his writing and example to make the first nationalist revolution in Asia in 1896. Today the Philippines revere Rizal as their national hero, and they regard his two books, *The Lost Eden* (*Noli Me Tangere*) and *The Subversive* (*El Filibusterismo*) as the gospel of their nationalism. *The Subversive*, first published in 1891, is strikingly timely today. New nations emerging in Africa and Asia are once again in conflict with their former colonial masters, as were the Filipinos with their Spanish rulers in Rizal's day. *The Subversive* poses questions about colonialism which are still being asked today: does a "civilizing mission" justify subjection of a people? Should a colony aim at assimilation or independence? If independence, should it be by peaceful evolution or force of arms? Despite the seriousness of its theme, however, *The Subversive* is more than a political novel. It is a romantic, witty, satirical portrait of Spanish colonial rule in the Philippines at the end of the nineteenth century, written in the tradition of the great adventure romances. The translation by Leon Ma. Guerrero, Philippine ambassador to the Court of St. James, conveys the immediacy of the original, and makes this important work available to a new generation of readers. His translation of *The Lost Eden* is also available in the Norton Library.

The Nation as Project

The lineage of a hero who made the history of his country during its most critical period, and whose labors constitute its hope for the future, must be more than a simple list of an ascending line. The blood which flowed in his veins must be traced generation by generation, the better to understand the man, but at the same time the causes leading to the conditions of his times must be noted, step by step, in order to give a better understanding of the environment in which he lived and labored. The study of the growth of free ideas is now in the days of our democracy the most important feature of Philippine history; hitherto this history has consisted of little more than lists of governors, their term of office, and of the recital of such incidents as were considered to redound to the glory of Spain, or could be so twisted and misrepresented as to make them appear to do so. It rarely occurred to former historians that the lamp of experience might prove a light for the feet of future generations, and the mistakes of the past were usually ignored or passed over, thus leaving the way open for repeating the old errors. But profit, not pride, should be the object of the study of the past, and our historians of today very largely concern themselves with mistakes in policy and defects of system; fortunately for them such critical investigation under our changed conditions does not involve the discomfort and danger that attended it in the days of Doctor Rizal.
