TorqueFlite (also seen as Torqueflite) is the trademarked name of Chrysler Corporation's automatic transmissions, starting with the three-speed unit introduced late in the 1956 model year as a successor to Chrysler's two-speed PowerFlite. In the 1990s, the TorqueFlite name was dropped in favor of alphanumeric designations, although the latest Chrysler eight-speed automatic transmission has revived the name.

The tenor is a type of male singing voice and is the highest male voice within the modal register. The typical tenor voice lies between C3 (C one octave below middle C), to the high C (C5). The low extreme for tenors is roughly A2 (two octaves below middle C). At the highest extreme, some tenors can sing up to F one octave above middle C (F5).

The term tenor was developed in relation to classical and operatic voices, where the classification is based not merely on the singer's vocal range but also on the tessitura and timbre of the voice. For classical and operatic singers, their voice type determines the roles they will sing and is a primary method of categorization. In non-classical music, singers are primarily defined by their genre and their gender and not by their vocal range. When the...
