Welcome Prof Andrew Crane

Please introduce yourself and what you do.

What prompted your interest in the field of ethics?

On Following your passion and how ethics was not a big topic in the past.

The idea of sustainability is shifting from being a 'topic' to being an 'action'. It is not just a choice, but part of our lives including work. In your opinion, is there a connection between sustainability and future jobs?

There are enormous benefits that business and entrepreneurial drive brings to society. Yet, there are negatives as well. When we talk about business and ethics,

for some reason, the negative side seems more prominent. Why do you think that is the case? What is the solution?

What is the purpose of a firm from the business ethics point of view?

In your opinion, where does the responsibility of business begin and where does it end? Is there room for the responsibility of the government?

What do you think are the new emerging trends in ethics that we as the public must be aware of?

How did your work and research in the ethics field shape your perception of everyday life events?

What are you focusing your research on now?

Do you have a favourite movie that uncovers aspects of business ethics?

Can you please offer a word of advice for researchers in the field of business ethics?

A word of advice for undergraduate students?
